Mandala 2

Instructions

1. Open a New Document in Adobe Illustrator > 8 inches x 8 inches.

2. Open the Polar Grid Tool (In the Line Segment Tool Section) and change the Concentric and Radial values to 5 and 12.

Polar Grid Too	ol Options	ALC: NO		
Default : Width: Height:	Size : 1.39 in : 1.39 in			
Concent Number: Skew:	ric Dividers : 5		Out 0%	_
- Radial D Number: Skew:	ividers : 12 : Bottom		Тор 0%	_
Create Fill Grid	Compound I	Path From OK	Ellipses Cance	əl

- 3. Click and drag out the Grid to fit the page > lock this Layer.
- 4. Add a New Layer where you will create you shapes and forms.
- 5. Place shapes within the Polar Grid and Duplicate/Rotate them into position.
- 6. Click the Rotate Tool, place the Cursor in the center of the Grid and Alt Click This will open the Rotate window.
- 7. Set the Angle to 360/12 or 360/6 depending how your design will look.

8. Press Cntrl D to duplicate the shape as many times as you want.
